

Veterinary Pharmaceuticals – Nutraceuticals

DutchFarm

INTERNATIONAL

Backed by more than 60 years of experience in development and production and 30 years in global registration and marketing, Dutch Farm International BV is your reliable partner in high-quality products for the animal production industry.

Dutch Farm International's products are available in more than 50 countries worldwide, under four brandnames: DutchFarm (veterinary pharmaceuticals and nutraceuticals), DufaMix (premixes, concentrates and additives), DufaSept (detergents and disinfectants) and DufaFeed (prestarter, compound and complimentary feed).

Dutch Farm International stands for premium quality products, for effective pharmaceuticals, essential nutrients, farm hygiene and food safety, because we want your animals to be healthy, strong and productive. We do it all, every day...

DutchFarm

DutchFarm is the brandname that stands for a wide range of premium quality veterinary pharmaceuticals and nutraceuticals for poultry and livestock.

Thanks for our long-term experience in the veterinary business, you may expect a well balanced portfolio of more than 75 generic products in injectable, oral liquid, oral water-soluble powder or tablet form. We are continuously working on the development of next-generation products to meet our customers' requirements.

Dutch Farm International is GMP certified and is regularly inspected by the Netherlands Public Health and Veterinary Authorities. All products have their origin in the European Union. Our widely experienced regulatory affairs staff is able to support distributors with all relevant technical information to register our products in the local markets.

As will be evident: we never compromise on quality!
